

2021 CT LC Senior Championships

Thursday-Sunday, July 8th-July 11th

Additional information regarding SR Championships:

Coaches Meeting

The coaches meeting has been changed to 6:30pm on Thursday, 7/8. It will be held in front of the administration table near the diving boards.

Weather

Thunder/Lightning

Per facility guidelines, in the case of thunder or lightning, the pool deck will need to be cleared. No one will be allowed back on the pool deck until 30 minutes after the last report of thunder or lightning. There won't be enough room in the lobby and locker room for everyone so it is suggested that swimmers, coaches and officials wait in their vehicles. If you don't have a vehicle, you can stay inside the lobby or the locker room.

Any delays based on the weather will result in the remaining breaks for the session being removed. If the session is cancelled meet management will attempt to move events to another session as is viable.

Rain

While rain itself won't effect our ability to run the meet, it may force all the swimmers inside the facility. The garage doors may need to be shut if the air temperature drops or there is a sizable volume of rainfall.

Wind

If there is significant enough wind, the garage doors of the facility will need to be closed. If that is the case all the teams will need to be inside the facility.

Spectators

Since there are still certain Covid restrictions regarding facility capacity, spectators will only be allowed when the facilities doors are open and teams can comfortably stay outside on the grass.

Based on the most recent weather forecasts, there won't be any spectators at the meet at the Thursday PM and Friday AM session. The other session will be determined at a later time.

When spectators are allowed, they will be limited to the yellow and orange area in the diagram attached. The orange area is standing room only and chairs cannot be set up in that area. Those wishing to watch a race may do so in the orange area but will need to return to the yellow area when the race is over. If everyone follows this guideline, there should be enough room for everyone to see the races they want to see.

Spectators need to access the pool thru the chain link gate not thru the facility entrance.
