

Connecticut Swimming, Inc. (CSI)
Local Swim Committee (LSC) of USA Swimming

Athlete Transfer of Club Affiliation

When a swimmer wishes to transfer to another team Article 203 of the USA Swimming Rules and Regulations applies. Swimmers transferring clubs within CT will complete Connecticut Swimming's transfer application form. Swimmers transferring to a club outside the state boundaries of CT will comply with the transfer procedures of the new LSC. A swimmer may elect to transfer or assume "Unattached" status at any time.

Requirements

A transfer application must be completed and sent to CSI's registrar. The following is required.

1. Athlete must be a current member of USA Swimming.
2. Athletes' complete name, address and date of birth.
3. The name of the club the athlete is leaving and name of club athlete is joining.
4. The athlete's last date of competition representing the old club in a USA Swimming competition.

For transfers between CSI clubs, the above required information may be directed to CSI's registrar using an online submittal form on the Registration page of ctswim.org or by going directly to this link:

<https://www.ctswim.org/CTNet/CFPaintForm.aspx?f=45>

New clubs may download the transferring swimmers registration and times from Connecticut FAST and upload into Hytek TM. An athlete's transfer from the old club must be complete before that athlete's history will be available to the new club for export. [FAST User Manual](#)

By approval of the CSI Board of Directors, June 17, 2009 CSI will no longer require 1.) the signature of the old club and 2.) the financial status of the transferring athlete. Clubs which the athletes are transferring from will receive a courtesy email notification of a transferring athlete.
