

Officials Info Sessions for Swimmers & Teams

Hope your season is going well.

The Connecticut Swimming Officials' Committee is launching an initiative to make one or more officials available to teams to attend practices or a special session. This new service is available starting this Fall. We hope this will help athletes, especially the younger kids, to learn more about officials to make it easier for them at meets, to be more at ease and confident. The visits would serve several purposes:

- Answer athlete questions about rules
- Watch your athletes swim and identify rule violations for those who wish to know
- Talk with interested swimmers about the roles of the various officials
- Help your swimmers be more at ease with officials
- Help new swim parents to understand meets
- Maybe help teams recruit new team officials

The activity could run concurrently with your team's normal practice and have little impact on their training, or, teams could devote a specific period of time. Teams may choose what is best for them.

Please contact:

Dave Pite, pite@snet.net, to request a session be scheduled.

We look forward to hearing from you to schedule an event for your team!

Best,
Nancy Wargo
